### Every Home Needs A Faithful Cough and Cold Remedy.

When seasons change and colds appear—when you first detect a cold after sitting next to one who has sneezed, then it is that a tried and tested remedy should be faithfully used. "I never wrote a testimony before, but I know positively that for myself and family, Dr. King's New Discovery is the best cough remedy we ever used and we have tried them all." 50c and \$1.00. Adv.

### SUNFLOWERS FOR MARKET

other grain crops even though the market price of the seed gets below the profit line, as their feeding value on the farm is worth considering.

#### Danger of Sunflowers.

While it has been said that this plant runs wild and becomes a troublesome weed in some sections, it has never given trouble in any part of the country familiar to us. It is true that the seed will remain in the ground all winter and come up in the following spring, and for this reason might give trouble in case oats follow sunflowers on the same land, yet a mower run over the field before oats were high enough to be hurt would destroy the sunflowers. The danger from sunflowers becoming a pest need worry anyone no matter in what section of the country.

### COAL RATES TO ADVANCE FIFTY CENTS PER TON.

until now the equipment has failed to decay. The Business League will get behind the river shipping business and try to bring about co-operation among factories, coal dealers and others in putting in such equipment as is necessary to unload coal from barges at a minimum cost. It can be shown that this outfit can be paid for in one year by the saving over the advance in rail rates. Every man, woman and child will feel the effect of the raise, and now is the time to get busy. We are not advised as to when the new rate will take effect—but its coming—so the sooner we join hands in rebuilding the river equipment, the better. The Young Men's Business League will be glad to have suggestions from our citizens and business men on this subject.

### FULTON SHIPS 10 CAR LOADS OF TOBACCO.

The largest shipment of tobacco at one time probably ever made from Fulton is being loaded today at the I. C. freight depot. There are 132 hogsheds or about 200,000 pounds of dark, kilndried tobacco in this shipment, which takes ten cars. It goes to the governments of France and Spain.

The most interesting feature in connection with this shipment is the fact that it can be shipped now to those European countries. It means that the market is now open to France and Spain and is the most important announcement that has been made in tobacco interests for months. It will be hailed with pleasure as good news by tobacco growers everywhere and particularly throughout the black patch, as Europe is the greatest consumer of this kind of tobacco.—Fulton Leader.
